

14th September

Dear parents and carers,

I am writing to ask for your co-operation in an important matter.

One of our pupils is receiving medical treatment for cancer which puts them at risk if they are exposed to measles, chicken pox, shingles or Covid-19. If your child is suspected of having any of these conditions, you should let us know by contacting your child's Head of House.

It is also vital that you report positive Covid-19 tests and when your child is showing symptoms of Covid-19, again by contacting your Head of House. We will treat all information confidentially; your child's identity will not be made known.

It is also important that you let us know if there is shingles in your household.

Your child is not at any risk from this situation. However, the health and well-being of our pupil who is at risk, does depend on the co-operation of all other parents and we hope that you can help us.

Many thanks in advance for your co-operation.

Your sincerely,

A handwritten signature in black ink, appearing to be "ER", enclosed in a light grey rectangular box.

Emma Reynolds
